Meet Principal Jessica Fyles

What brought you to education?

Both of my parents were the first generation in their families to go to college. That opportunity significantly changed the trajectory of my life and the experience of our entire family. I grew up believing in the power of education to open doors and the potential of schools to create a more equitable society. Early on, I explored working in education by volunteering in schools, tutoring, and teaching in the summers during high school and college. As a mixed race woman, Filipina and White, I became particularly interested in the ways that schools shape our identities. Although always passionate about education, it took me time

**FIRST DAY OF SCHOOL: AUGUST 19, 2019
AT THE LOWELL CAMPUS IN WEST OAKLAND!**

**AFTER SCHOOL PROGRAM WITH
THE PEOPLE'S CONSERVATORY**

We are REALLY excited about our plans for a **fantastic after**

to commit to becoming a teacher. After graduating college, I explored other paths and pursued working in affordable housing in San Francisco, my hometown. I believe that life has a way of taking you back to your purpose, and I am so thankful that I found my way back to education.

My first job in a school was as an Instructional Aide at City Arts & Tech High School (Envision's San Francisco school). I loved it. **I loved the students, the community and the possibility** present when working in a school. From there, I pursued my special education master's and credential, and I have stayed in schools ever since. **It's the best decision I've ever made.**

I am looking forward to working with you and your students. Please [reach out to me](#) to talk or ask questions!

school program at Envision Academy Middle Grades!

We will be partnering with *The People's Conservatory*, an Oakland-based organization that helps young artists create, explore and perform, in an effort to promote cultural awareness and positive social change. TPC offers programming in **literary arts, music, theatre, visual arts and more**, and we can't wait to bring this incredible resource to our students!

What I'm looking for in a middle school is a great community for my daughter.

That's why I'm so excited about Envision Academy's new 6th grade.

Visiting with teachers and students, everyone is very welcoming and excited about learning. My daughter feels really comfortable.
