

Students & Families of EA:

We are experiencing a pivotal moment in history as people flood the streets to express outrage over the killing of George Floyd and the entrenched and unchecked racism this brutal act of murder represents. People are flooding the streets and raising their voices to demand systemic change in our police departments throughout the country. This activism builds on years and decades of activism by the Black Community and Allies to push for full equity and inclusion into American systems of Justice. As students and teachers we add our voices to this growing chorus demanding change and creating peaceful and thriving communities. We are sharing a few actions we have taken that you can also take. This movement is a marathon and not a sprint. Make sure to stay informed and engaged as the summer unfolds and into the Fall. Make sure your voice and those of your communities continues to count.

What You Can Do!

Put Pressure on Public Officials to Reform and/or Defund Police Departments

- Send a direct email to your Elected Officials and urge them to act!!

Support and Thank Civic Leaders and Activists

- It can be very hard to change oppressive systems and the people who fight for change from within get a lot of hate! Show them some love so they keep showing up for Justice!

Give money or time to local businesses owned and run by People of Color

- Donate to Oakland Indie Alliance's Oakland Repair Fund and to gofundme pages like the Oakland Black Business Damage Fund

Money and Supplies got you down?

- Email your letter to julia@envisionacademy.org and she'll make sure it gets in the mail.

Here are some people with power in government and police who have spoken out. THANK THEM (or your own Civic Hero). Tell them what their actions mean to you and push them to keep fighting for JUSTICE.
