

What are some of the lenses through which we can look at student work?

In order to  
reflect on  
student  
performance

In order to  
adjust  
instructional  
practice

In order to revise  
a rubric or a task  
assignment

In order to  
establish anchor  
papers

In order to  
calibrate  
assessment  
(using a full  
rubric or  
individual  
domains)
